

Technical sheet

Ref. 030163

Galvanized twisted anchorage for bottom of roof - Steep slopes - L. 65 cm

FEATURES

The Dimos low roof anchor is designed to receive collective peripheral protection (guardrail or scaffolding) or to secure access to the roof with PPE (Personal Protective Equipment), which provides an access solution for all types of roofs and frames. Ensure to attach according to the assembly instructions. Complies with standards EN795 Class A2 and EN13374 Class C with Dimos guardrail ref. 010022 or Dimos steel scaffolding and hook bar ref. 020097. Patented system and registered design.

SPECIFICATIONS

Length (mm)	850
Width (mm)	30
Height (mm)	185
Weight (kg)	0,927

Technical description

Permanent anchor. Connects to fall arrest PPE or used to install a guardrail. Must be fixed by Dimos axle crampons.
