

Technical sheet

Ref. 215598

Straight clinching pliers | 22 mm

Seaming pliers are used to create different folds when working with sheet metal.

FEATURES

Very strong
Easily folds small widths Ideal for finishing work
Metal handles: to get as close as possible to the metal. Cast steel: stronger
Box joint: the two parts of the pliers are assembled on a steel axis by riveting the joint.
The loads are concentrated in the center of the axis of the clamp which requires maximum tightening of the hinge.

SPECIFICATIONS

Lenght (mm)	45
Width (mm)	22
Height (mm)	180
Weight (kg)	0,221
Max sheet width / Working width (mm)	22

Technical description

Used to fold metal to a width of 22mm and a depth of 30 mm
Steel
Box-joint construction PVC-coated handles

Actions : To fold

Trades : Metal
