Ref. 216000

## Edge Bender B19 - 220mm

Shaping made easy

## FEATURES

Bending range: bending height 5mm-220mm, up to maximum 100°  
Vast array of applications: can bend all type of materials (zinc, aluminium, copper,...)  
Ease of use and effort reduction

## SPECIFICATIONS

Lenght (mm)	0
Width (mm)	0
Height (mm)	0
Weight (kg)	0

## Technical description

A durable and solid bender: made of a stainless steel body and anodized aluminium parts  
Easy to fold in corners and closed angles  
Inclined wafer allowing folding up to 100°  
Tightness of standing seams: perfect dust- and water-tightness of standing seams  
Device setting: laser-engraved graduations every 1 mm allows precised bending  
No damage on sheet metal, even on delicate coated materials
