

Technical sheet

Ref. 720034

DIM ROLL brown 390 flexible ventilation - L. 5 m - W. 390 mm

Roof ventilations ensure good air circulation between the bottom of the roof and the ridge and thus provide for the durability of the roof.

FEATURES

- Anti-tear
- Constant airflow
- Strong adhesion, even when wet or dusty (protection with disposable polyethylene tape)
- Waterproof and breathable body
- Easy to install: line for centring the ridge, cutting with scissors or cutter
- UV and weather resistant

SPECIFICATIONS

Lenght (mm)	5000
Width (mm)	390
Height (mm)	1
Weight (kg)	0,97

Technical description

Fibre and aluminium ventilated ridge: ventilation holes with sealing edge
 Pleated sleeve made of malleable aluminium with high covering performance (easy treading)
 Sewn sleeve and body
 Ventilation surface: 200 cm² to the ml

Actions : To ventilate

Trades : Slate / Tile
