Specification and technical parameters

Presented with options

Specification	
Length	2,22 m
Width	0,60 m
Height	1,10 m
Weight	115 Kg
Working length	2 m

Technical parameters	
Steel 400 N/mm ²	0,60 mm
Aluminum	0,70 mm
Copper	0,70 mm
Stainless steel	0,50 mm
Zinc	0,80 mm

Ref.	Description/Content
081452	2m TRIADE® bending machine
981454	2m TRIADE® bending machine with cutting system
081454	2m TRIADE® bending machine on castors
981456	2m TRIADE® bending machine on castors with cutting system

Accessories and add-ons

Cutting system	Steel beading system with beading rod 1 frame = 1 diameter	Aluminium beading system 3Ø 1 frame = 3 possible diameters	Rear table
Cutting adaptation for Rotalame Ref. 071252	Ø 14 mm - Ref. 083424 Ø 16 mm - Ref. 083426 Ø 18 mm - Ref. 083428	Ø 13 mm - Ref. 083583 Ø 16 mm - Ref. 083586 Ø 18 mm - Ref. 083588	Rear table without stop or storage rack Ref. 081498
Rotalame Ref. 071224			

Advantages of the TRIADE® bending machine

MULTIPLICITY

- Shaping of **close bends** thanks to its short bending beam (15 mm).

- The **lateral clearances** enable the shaping of profiles with 80mm high upstands (right and left).

- The **opening height of 70mm** of the upper beam enables the passage of sheets with an upstand of 70mm.

- **CUTTING** (option) :
- Cutting adaptation
- Rotalame®

- **BEADING** (option) :
- Steel or aluminium
- Possibility to choose the diameter

- **REAR TABLE** (option)

EASE OF USE

- Its **self-locking gear linkage** enables the blocking of the sheet.

- The bend closing is easily effected on the upper beam.
- Self-lubricating rings

ACCURACY

- The setting of the upper beam rotundly enables the fine adjustment of the straightness of the fold.

EASY TO TRANSPORT

- The simple mounting and dismantling of the stands makes the transport of the TRIADE® bending machine easy.
